SEMANTiCS 2019 - Call for Posters & Demos

15th International Conference on Semantic Systems
Karlsruhe, Germany
September 09 -12, 2019
http://2019.semantics.cc

Important Dates (Posters & Demos) extended
- **Paper Submission Deadline:**   **June 22,** 2019 (11:59 pm, Hawaii time)
- **Notification of Acceptance:**   **July 15,** 2019 (11:59 pm, Hawaii time)
- **Camera-Ready Paper:**   **August 1,** 2019 (11:59 pm, Hawaii time)

Submission via Easychair on https://easychair.org/conferences/?conf=semantics2019

Proceedings will be submitted to CEUR-WS.org for online publication and made available open access.

The Posters & Demonstrations Track invites innovative work in progress, late-breaking research and innovation results, and smaller contributions in all fields related to the (broadly understood) Semantic Web. These include submissions on innovative applications with a strong impact on end users such as demos of solutions that users may test or that are yet in the conceptual phase but are worth discussing, and also applications, use cases or pieces of code that may attract developers and potential research or business partners. This also concerns new data sets made publicly available.

Topics include but are not limited to:

- Data Mining and Knowledge Discovery
- Data Quality Management and Assurance
- Economics of Data, Data Services, and Data Ecosystems
- Enterprise Knowledge Graphs, Graph Data Management, and Deep Semantics
- Explainable Artificial Intelligence
- Machine Learning & Deep Learning Techniques
- Natural Language Processing
- Reasoning, Rules, and Policies
- Semantic Information Management & Knowledge Integration
- Semantics in Blockchain and Distributed Ledger Technologies
- Semantics in Data Science
- Terminology, Thesaurus & Ontology Management
- Trust, Data Privacy, and Security with Semantic Technologies
- Web Semantics & Linked (Open) Data

- Special Track: Digital Humanities and Cultural Heritage

- Special Track: LegalTech

The informal setting of the Posters & Demonstrations Track encourages participants to present innovations to the research community and business users as well as to find new partners or clients and engage in discussions about the presented work. Such discussions can provide presenters valuable input for their future work while offering conference participants an effective way to network with other researchers and broaden their knowledge of emerging research trends.

Poster and demo submissions should consist of a paper that describes the work, its contribution to the field or innovative aspects. Submissions must be original and must not have been submitted for publication elsewhere.

Proceedings shall be submitted to CEUR-WS.org for online publication. Papers should be submitted through EasyChair (https://easychair.org/conferences/?conf=semantics2019) following the [Springer LNCS style](#) and be exactly five (5) pages long, including references. In addition to PDF submissions, we also accept HTML submissions as long as they are compatible with the [Springer LNCS style](#).

Submissions will be reviewed by experienced and knowledgeable researchers and practitioners; each submission will receive detailed feedback. For demos, we encourage authors to include links enabling the reviewers to test the application or review the component.

Poster and Demo Chairs:
- Mehwish Alam, Consiglio Nazionale delle Ricerche (CNR)
- Ricardo Usbeck, University of Paderborn
